Installation Ceremony Report   **Date –6thFEB2024**

Kolhapur chapter completed installation ceremony ISHRAE student chapter activity held at
Date - 6thDEC2024
Time –2.00 Pm to 4.30 pm
Students involved in this activity:80

Activity Completed:

Completed installation ceremony ISHRAE student chapter oath ceremony & technical talk (application of air conditioning and clean room)

Activities Conducted are:

1. Basic Introduction about ISHRAE and Other things in Engineering.

2. Students from ISHRAE club are co-ordinator of this programme and also attended the technical talk (application of air conditioning and clean room).

3. ISHRAE student chapter oath ceremony.

4. ISHRAE Kolhapur chapter all members.

5. HVAC industry person.

INVITATION LETTER: -

STUDENTS IN ISHRAE · sit · ISHRAE KOLHAPUR CHAPTER

SHARAD INSTITUTE OF TECHNOLOGY COLLEGE OF ENGINEERING, YADRAV

(AN AUTONOMOUS INSTITUTE)
MECHANICAL ENGINEERING DEPARTMENT

We heartily invite you to join with us for
Re-Installation Ceremony of

ISHRAE-SITCOE STUDENT CHAPTER-23-24

&

Technical Talk on

Applications of Air Conditioning & Clean Room

In presence of

Mr.A.V.Kulkarni

(Managing partner of Anucool Engineers)

&

Mr.Pramod Pungaonkar
(President Elect ISHRAE Kolhapur chapter)

●●● *Honorably Invited* ●●●

Mr. A.S.N. Husainy
Faculty coordinator
SITCOE, Yadrav

Dr. S.D. Patil
HOD Mechanical Dept.
SITCOE, Yadrav

Dr. S.A. Khot
Principal
SITCOE, Yadrav

Shri. Anil Bagane
Executive Director
SITCOE, Yadrav

📍 Venue:- Mechanical Seminar Hall SITCOE, Yadrav

📅 Date:- 06/02/2024   🕐 Time:- 02:15 PM

come and join us

TECHNICAL TALK: -

NAME: - Abhijit Vyankatesh Kulkarni.
Educational Qualification: - B.E. (Mech.) from
Walchand College of Engineering; Sangli in 1986.
Area of interest: - HVAC Product design.

Technical Talk Title: - APPLICATION OF AIR CONDITIONING AND CLEAN ROOM

Healthcare Industry: Hospitals and pharmaceutical facilities utilize air conditioning and clean rooms to prevent contamination and maintain sterile environments crucial for surgeries, patient care, and drug manufacturing.

Electronics Manufacturing: Clean rooms are indispensable in semiconductor manufacturing, preventing dust and particle contamination that could compromise the functionality of delicate electronic components.

Food Processing: Air conditioning plays a vital role in regulating temperature and humidity levels in food processing facilities, ensuring product safety and extending shelf life.

Research Laboratories: Clean rooms are essential in research labs, especially in fields like microbiology and nanotechnology, where even minor contaminants can invalidate experimental results.

Data Centers: Air conditioning is crucial for maintaining optimal temperatures in data centers to prevent overheating of servers, ensuring uninterrupted operation and data integrity.

Automotive Industry: Clean rooms are used in automotive manufacturing for tasks like painting and assembly to maintain quality standards and prevent contamination of sensitive components.
