The ISHRAE Student Chapter (Department of Mechanical Engineering) in collaboration with ISHRAE Kolhapur Chapter organized a technical talk on **“Green Building Movement in India”** on 31st January 2025. The event was aimed at enlightening students about sustainable building practices and their importance in modern construction.

The session commenced at **9:30 AM** with a warm welcome address by [Faculty Coordinator/Organizer’s Name]. The speaker for the session, **Mr. Bhavesh Mehata**, was introduced to the audience, highlighting his expertise in the field of sustainable architecture and green building technologies.

Mr. Mehata delivered an insightful lecture covering various aspects of green buildings, including:

The importance of sustainable construction

Energy-efficient building designs

Use of renewable resources in construction

Green Building Certification processes in India (e.g., IGBC, LEED, GRIHA)

Case studies of successful green buildings in India

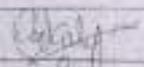

He emphasized the significance of adopting green building practices to minimize environmental impact and ensure a sustainable future.

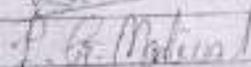

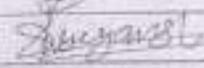

Following the talk, an interactive Q&A session was conducted where students actively participated by asking questions related to the implementation of green technologies in India.

Mr. Mehata provided insightful answers and shared real-world examples, further enriching students’ understanding of the subject.
