

World Refrigeration Day

Event Report

Event Details :

Event	World Refrigeration Day
Date	26 June 2024
Event Type	Technical Quiz
Mode	Online
No. of participants	258

World Refrigeration Day was the idea of refrigeration consultant Stephen Gill, former president of the Institute of Refrigeration in the UK. In October 2018, ASHRAE (The American Society of Heating, Refrigerating and Air-Conditioning Engineers) pledged support for World Refrigeration Day. In January 2019, ASHRAE awarded Gill it's John F James International Award in Atlanta. In February 2019, the United Nations Environment Programme pledged support at the UNEP national ozone officers meeting in Paris. The inaugural World Refrigeration Day was held on 26 June 2019.

Introduction:

World Refrigeration Day, observed annually on June 26th, is a global event aimed at raising awareness about the vital role that refrigeration, air conditioning, and heat pumps play in modern life. The day celebrates the significant contributions of the refrigeration industry to society, including the preservation of food, medicine, and other perishable goods, as well as its impact on comfort and quality of life. This year, the ISHRAE (Indian Society of Heating, Refrigerating and Air Conditioning Engineers) Kolhapur Chapter, in collaboration with SITCOE Yadrav, organized a technical quiz to commemorate this important day.

Event Details:

The World Refrigeration Day Technical Quiz took place on June 26, 2024. This initiative aimed to engage students and professionals in the field of mechanical engineering, particularly those specializing in refrigeration and air conditioning. The quiz was conducted in an online mode, allowing participants from various locations to join and test their knowledge. The event was hosted by the ISHRAE Kolhapur Chapter and supported by the Department of Mechanical Engineering at SITCOE Yadrav.

Organizers and Key Personnel:

The success of the World Refrigeration Day Technical Quiz can be attributed to the dedicated efforts of several key individuals. The student coordinators for the event were Mr. Yuvraj Patil and Mr. Sudesh Mane, who played a crucial role in organizing and managing the logistics of the quiz. Their commitment and enthusiasm were instrumental in ensuring a smooth and engaging experience for all participants.

The event was overseen by esteemed faculty and officials from SITCOE Yadrav. Dr. S.D. Patil, the Head of the Mechanical Department, provided valuable guidance and support throughout the planning and execution stages. Dr. S.A. Khot, the Principal of SITCOE Yadrav, also extended his support and encouragement, highlighting the importance of such events in enhancing the academic and professional development of students.

Additionally, Mr. A.S.N. Husainy, Assistant Professor at SITCOE Yadrav and President Elect of the ISHRAE Kolhapur Chapter, played a pivotal role in organizing the quiz. His dual role as an educator and industry professional brought a unique perspective to the event, bridging the gap between academic learning and practical application. Hon. Shri. Anil Bagane, Executive Director of SITCOE Yadrav, also lent his support to the initiative, underscoring the institution's commitment to promoting technical education and industry engagement.

Participation:

Participation in the World Refrigeration Day Technical Quiz was facilitated through an online platform, making it accessible to a broad audience. Participants were required to scan a QR code provided in the event flyer to access the quiz. This innovative approach not only simplified the registration process but also ensured that the event could reach a wide range of participants, including students, academics, and industry professionals. For any queries or assistance, participants were encouraged to contact the student coordinators, Mr. Yuvraj Patil and Mr. Sudesh Mane. Their contact information was provided in the event flyer, ensuring that participants could easily reach out for support or additional information.

Conclusion:

The World Refrigeration Day Technical Quiz organized by ISHRAE Kolhapur Chapter and SITCOE Yadrav was a resounding success. The event highlighted the importance of refrigeration technology and its impact on various aspects of life, from food preservation to comfort and healthcare. The collaborative efforts of student coordinators, faculty members, and key officials ensured a well-organized and engaging event that provided valuable learning opportunities for participants. As the refrigeration industry continues to evolve, such initiatives play a crucial role in fostering knowledge, innovation, and professional growth among students and professionals alike. This event not only celebrated World Refrigeration Day but also reinforced the significance of continuous learning and industry engagement in the field of refrigeration and air conditioning.
